## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. **Claim 1 and all depending claims** rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

As per **claim 1** and all depending claims, the claim recites “at least a portion of a first telecommunications protocol”. The specification does not disclose how a portion of a protocol would be implemented. The specification does not define what the claimed portion would comprise, or how the device would ‘implement a protocol’ as claimed, while only a portion of the protocol is specified by the system.

### *Allowable Subject Matter*

1. **Claims 14,15,17-19,22,23,56-60** are allowed over the prior art of record

**Response to Arguments**

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
